

BOSE 802-PLX EXTENDED SYSTEM

The 802 extended system includes 2 802 Series III Loudspeakers, 2 Panaray MB4 Modular Bass Loudspeakers, 1 Panaray Controller, 2 QSC PLX3102 Amplifiers, and 2 Speaker Stands.

The 802 extended system combines high quality and high output in a configuration that's flexible, affordable, and portable enough for small bands, DJs, and karaoke performances.

The system's 802-III speakers have enough power for full-band reinforcement. Because of their high sound quality, they are also frequently chosen for keyboard, guitar, or drum monitoring. You can use 802 speakers alone for rehearsing at home or performing in a small club. For larger bookings, add the MB4 bass module.

When the MB4 module is operating, the 4 1/2" (11.4 cm) drivers in the 802 speakers concentrate their full power on mid-range and high-end frequencies, increasing output levels. At the same time, the MB4 bass module concentrates all of its power on the bass frequencies. The quality of your sound remains the same, but it gets louder across the entire frequency range.

The QSC PLX power amp(s) provide the needed power to drive these speakers. These high-power amplifiers are designed for the most demanding live performance uses. Built on the third generation of QSC PowerLight® technology, PLX2 amplifiers combine light weight, superlative audio quality and proven QSC reliability. PLX2 amplifiers are capable of providing plenty of clean, undistorted output to the most power hungry speaker systems.

System Components

Bose Array Loudspeakers 802-III (240W) x 2 pcs
 Bose Bass Module MB4 (200W) x 2 pc
 Bose Digital Panaray System Controller x 1 pc
 QSC PLX3102 Power Amplifier (dual 600W 8Ω) x 2 pcs
 Bose SS10 Portable Speaker Stands x 2 pc

Weight

Array Loudspeakers (each) 14kg
 Acoustimass Module (each) 20kg
 System Controller 2.5kg
 Amplifier 9.5kg

System Frequency Response (+/-3dB) 40Hz - 16kHz

Coverage (Beamwidth, --6dB)

Horizontal 120°
 Vertical 100°

Maximum System

Acoustic Output (1m)
 Average 117dB SPL
 Peak Capability 122dB SPL

PACKAGED PRICE: S\$9,499*

* Cables to be purchased separately based on requirements.

* Installation and setup is not included. Professional consultation is available for a minimum fee.

* Price includes 5% GST.
